

SHAIKALI SINGH

Full Stack Developer | MERN | Laravel | Backend Systems

8602142022 | shaikalisingh1208@gmail.com | linkedin.com/in/shaikali-singh-56134025b | Indore, Madhya Pradesh

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of expertise building scalable web applications using MERN stack (MongoDB, Express.js, React.js, Node.js), Laravel, and PHP. Specialized in designing robust backend systems, crafting RESTful APIs, implementing real-time features with WebSockets, and optimizing database performance. Proven ability to deliver end-to-end solutions from backend architecture to responsive frontends, enabling businesses to scale digital operations effectively.

TECHNICAL SKILLS

Full Stack (MERN): Node.js, Express.js, React.js, MongoDB, REST APIs, Socket.IO, WebSockets

Backend & APIs: Laravel, PHP, API Design, Microservices, Event-Driven Architecture, Real-Time Sync

Frontend: HTML5, CSS3, Bootstrap, JavaScript ES6+, React.js, Responsive Design

Databases: MySQL, MongoDB, Query Optimization, Database Design, Data Modeling, Indexing

DevOps & Tools: Git/GitHub, AWS (EC2, S3, RDS), Hostinger, Linux, Docker, CI/CD, Postman

Soft Skills: Problem-solving, Team Collaboration, Agile, Code Reviews, Security Best Practices

PROFESSIONAL EXPERIENCE

Software Developer | M.K Tech IT Solutions (Remote) | October 2024 – Present

- Architecting and implementing scalable REST APIs using Node.js and Express.js; designing efficient database schemas
- Developing full-stack features with React.js frontends and Laravel/Node.js backends; real-time functionality via Socket.IO
- Optimizing database queries, implementing indexing strategies, and improving API response times
- Conducting code reviews, documenting solutions, and mentoring junior developers

Backend Developer | SRN Infotech, Indore (On-site) | January 2023 – September 2024

- Built and maintained backend systems and RESTful APIs using Laravel framework and PHP
- Designed admin dashboards with CRUD operations, data management, and role-based access control
- Integrated database systems with frontend using MySQL, AJAX, and REST APIs
- Created reusable, modular components deployed across multiple client projects

KEY PROJECTS & ACHIEVEMENTS

1. Saj-Pe – Digital Financial Services Platform

Tech: Node.js, Laravel, PHP, MySQL, REST APIs

- Multi-module platform integrating product catalog, recharge services, bill payments, and travel bookings
- Developed product module with vendor panel and APIs for onboarding
- Built recharge module with real-time tracking and comprehensive logging
- Implemented bill payments (Mobikwik) and travel booking APIs (buses, hotels, flights, cabs)
- Result: Production-ready platform handling thousands of daily transactions

2. Travel Booking Platform

Tech: Node.js, Express.js, React.js, MongoDB, Socket.IO

- Full-stack app with React frontend and Node.js backend; real-time updates via Socket.IO
- Implemented secure payment integration and email notification system
- Dynamic search filters and advanced filtering capabilities
- Result: 95% uptime with sub-100ms API response times

3. TGI Healthcare – Telemedicine Platform

Tech: Node.js, Express.js, React.js, MongoDB

- Doctor/patient management, OTP authentication, consultation booking, compliance-ready workflows

4. Malwa Digital App

Tech: Laravel, PHP, MySQL, Bootstrap

- Digital services platform: mobile recharge, bill payments, wallet system with UPI integration
 - Transaction history, user profiles, admin dashboard with complete control
 - Result: Production-ready app with secure payments and 99.5% uptime
-

EDUCATION

Bachelor of Science in Computer Science Engineering

Devi Ahilya Vishwavidyalaya (DAVV), Indore | 2016 – 2019 | CGPA: 6.0/10

Higher Secondary School (12th)

Saraswati Higher Secondary School | 2016 – 2018 | 80%

EXPERTISE HIGHLIGHTS

Backend Architecture: Microservices design, event-driven systems, caching, scalability

Database Optimization: Query optimization, indexing, normalization, transactions

API Development: RESTful design, optimization, rate limiting, auth/authorization

Real-Time Systems: WebSockets, event broadcasting, live notifications

Payment Integration: Stripe, Razorpay, Mobikwik, UPI, transaction security

Deployment & DevOps: AWS, CI/CD, Docker, server management, Linux
